

# Assessment criteria

in README file for challenge 1

1) challenge - efficiency using tidyverse going beyond?

2) Reproducibility

3) Creativity

4) Participation.

using informative  
comments  
code structure  
order things  
repo has folders

creative workflows  
data wrangling  
something interesting  
that hasn't been  
taught visualization  
data visualization  
in repo...

providing feedback  
to fellow student.  
incorporate feedback  
given to you.  
BEFORE challenge  
1 is due!!

Time that feedback  
is due:

code efficiency &  
data wrangling  
tools.

Inviting feedback:  
pull request  
and issue!
